

TO BE NO RUSH ON RUSS POLICY

New Administration Will
Take Its Time in An-
swering the Reds

UP TO THE CABINET

Economic Factor to Be Rea-
Power in Shaping Reply,
Is the Indication

By GEORGE R. HOLMES
N. Y. Staff Correspondent

WASHINGTON, March 24.—The new administration is going to take the time in answering Soviet Russia's appeal for a re-establishment of relations. It was strongly indicated today in official circles.

Having got along without com-
mercial dealings with Russia for
several years, no particular need, for
hurry in answering a Russian ap-
peal is felt by those now in com-
mand in Washington.

The question of a Russian policy
occupied considerable time at Tues-
day's cabinet meeting and in all
probability will be taken up again
by President Harding and his ad-
visers at tomorrow's regular session.

At least was indicated today, no
reply will be dispatched to Moscow
until the cabinet has had an oppor-
tunity to fully examine the com-
munications and leaders in the house
and senate have been sounded out.
There is little indication what
trend the American reply will take.
But what little there is seems to
point to the Moscow appeal being
given what might be termed every
favorable consideration.

Pressure Is Increased.
The most immediate result of the
Soviet communication has tended to
increase the pressure that is being
brought from many quarters for a
resumption of trade relations, at
least in name. Labor organizations
are nearly unanimous in favoring
such a policy. A number of western
and midwestern congressmen also
believe the Soviet offer should be ac-
cepted, for they see in Russian im-
ports and outlets for the grains and
products for the great farm belts
which are now stagnant in the avail-
able markets of the world.

The so-called "progressives" in
the senate are staunchly in favor of
dealing with Russia. Senator Wil-
liam E. Borah, of Idaho, introduced
a resolution to this effect which
failed of passage in the last session.
Unless there is favorable action by
the administration in the meantime,
he intends to reintroduce it in the
new session next month.

Economic Factor Real Power.

The most powerful factor in shap-
ing the new policy will be purely
economic, it is believed. If the new
congress passes a high protective
tariff early in the next session, as
now appears inevitable, it is going
to have a far reaching effect upon
popularity of American products in
the markets of the world.
America may need all the outlet
obtainable for her goods, particu-
larly if the American tariff leads to
regulatory action on the part of
some of her best customers like
Argentina.

SUES CORN PRODUCTS

Omaha Concern Charges Big Chi-
cago Corporation With Being
the "Sweets" Trust.

CHICAGO, March 24.—Charging
the Corn Products company of Chi-
cago and Argo, Ill., with being a
"sweets trust," and with ignoring a
court decree declaring the concern
in violation of the anti-trust laws of
the United States, Farrell and Com-
pany of Omaha, Neb., manufacturers
of syrups, today brought suit for
\$1,000,000 in United States district
court. The suit charges specifically
that the Corn Products company
"from 1907 until 1917 conspired with
many other companies to monopoli-
zize trade and commerce in mixed
groups of glucose, grape sugar and
kindred products in restraint of
trade and by unfair competition."

Farrell and company further
charge that in November of 1915
the government secured a decree is-
sued by Federal Judge Hand, hold-
ing the Corn Products company was
a combination in restraint of trade
and had violated the anti-trust laws
of the country.

Today's action is brought under
the Sherman anti-trust act to recover
damages alleged to have been in-
flicted upon the Omaha company by
the alleged monopoly.

New Bulgarian 'Labor Battalions' To Include Beauties From Wealthy Families, Farmer Rulers Decree

By NEWTON C. PARKE
N. Y. Staff Correspondent

PARIS, March 24.—Bulgarian
beauties—society beauties from old-
rich and fashionable families who
have been used to a life of luxury
and idleness—will soon have to go
to work whether they want to or not.
The "farmer" government of Pres-
ident Stamboulsky at Sofia is about
to enact legislation making work
compulsory and according to infor-
mation received here today, large
numbers of Bulgarian social but-
flies are planning to leave the coun-
try to make their future homes
abroad. Most of them probably will
come to France.

Stamboulsky is preparing to en-
roll all healthy women not earning
their own living, in "labor battal-
ions," mobilized under state de-
cree. Under this scheme, idle women will be com-
pelled to give at least one day free
to their country each week. They
may nurse in a public hospital, or
scrub or cook in government build-
ings, according to their choice. But
regardless of their social rank, they
must work at least 12 hours out of
every week.

The plan for the mobilization of
women for government service is
identical with that contained in laws
already in effect under which every
young man in Bulgaria gives at least
one day a week free to the state.
Stamboulsky's legislation for these
"labor battalions" raised a great

outcry among the idle rich of Bul-
garia but until recently they have
been quite effective. However, rep-
resentatives of the allied powers
have complained that these "labor
battalions" might easily become the
camouflage for a big military or-
ganization in defiance of the treaty
of Neuilly, and they may be re-
pealed insofar as males are con-
cerned. The farmer government at
Sofia anticipates no protests so far
as the women are concerned.

In other respects the original pro-
gram of the Stamboulsky regime
has begun to undergo changes. The
government has been forced to ally
itself with capitalists to resist bol-
shevik elements.

A few days ago leading bankers
were summoned to a conference
where it was announced that no
more legislation against industry
will be enacted. The bankers had
protested that foreign capital was
being frightened out of Bulgaria
and that they could no longer fi-
nance measures for the country's re-
construction.

Small enough to be stored under
a kitchen sink when idle, a new
electric washing machine can be
operated in any laundry or bath
tub.

ADMITS HE KILLED DOUBLE

Virgil Decker Assumes All Blame for
Lovett's Murder.

WARSAW, Ind., March 24.—Vir-
gil Decker, having again assumed all
blame for the murder of Leroy Lov-
ett of Elkhart, is ready to go before
the Kosciusko county grand jury and
make a clean confession. It was an-
nounced today by R. A. Bighler, his
attorney. Later he will admit his
guilt before a jury when he is placed
on trial, the attorney said. The
grand jury began a searching inves-
tigation into the murder and the
possible connection with the crime
of Decker's acquisition of approxi-
mately \$25,000 insurance prior to
slaying his "double."

In the latest of a series of "con-
fessions," Decker told his attorney
that his accusation of "Dago John"
Javagnola as the slayer was untrue.
Decker informed his counsel that he
and Lovett obtained a quantity of
whisky before they left Elkhart on
the night of March 11. When they
reached the lonely cabin on Tippecanoe
river, where Lovett was at-
tacked, the youths quarreled and
fought and Decker killed his "pat"
with an iron bar, according to the
confession.

Long Chase for Slayer Ends.

SALT LAKE CITY, March 24.—
After a chase which was begun
February 18 and led into every
state in the west, Delbert Smith, 26,
of Minneapolis was arrested by
postal inspectors in the Salt Lake
postoffice late yesterday. Smith is
accused of the murder of Z. B.
Strong, railway mail clerk, and with
robbing a mail car on the Northern
Pacific railroad near St. Paul of ap-
proximately \$28,000.
